Senior Principal Insights and Data Science Leader

Portfolio: <https://taywah.github.io/portfolio-site/>

SUMMARY

Insights and data science leader with 12+ years of experience translating customer, revenue, lifecycle, and product data into executive decisions. Builds scalable analytics products, KPI frameworks, experimentation systems, predictive models, and self-service AI workflows across Google, Intuit Mailchimp, and enterprise CRM environments. Known for connecting technical analytics depth with growth strategy, measurable business outcomes, and cross-functional operating discipline.

CORE COMPETENCIES

Strategy and Influence: Executive storytelling, growth strategy, go-to-market analytics, RevOps analytics, stakeholder leadership, strategic planning

Analytics and Data Science: Lifecycle analytics, audience segmentation, reactivation modeling, predictive modeling, forecasting, experimentation, KPI design, cohort analysis

Data Products and Systems: Self-service analytics platforms, AI-enabled workflows, scalable reporting layers, data-quality governance, CRM exports, production SQL patterns

Technical Stack: SQL, BigQuery, Python, pandas, NumPy, scikit-learn, Streamlit, Flask, Claude Code, Cursor, Gemini, Dataform, GCP, Tableau, Plotly, GitHub

SELECTED IMPACT

- Identified and sized **\$4M-\$11M+ in annualized New MRR opportunity** across strategic growth, industry prioritization, competitor churn, and reactivation initiatives
- Designed self-service analytics products for prospect targeting, market sizing, persona validation, quality assurance, and CRM-ready export workflows
- Built AI Skill-Based automation: Agent workflows that converted ambiguous sales and marketing questions into governed, repeatable insight-to-action systems
- Created executive-facing segmentation, KPI, and prioritization frameworks used to evaluate hundreds of industry segments and inform strategic planning
- Recovered trusted firmographic data after discovering an **86M-row enrichment issue**, restoring accurate inputs for impacted accounts and strengthening SQL governance patterns

PROFESSIONAL EXPERIENCE

INTUIT MAILCHIMP

Senior Business and Sales Data Scientist

NEW YORK, NY

Feb 2024 - May 2026

- Designed and launched **Audience Funnel Builder**, an AI-assisted prospect targeting platform enabling self-service market sizing, persona validation, existing-customer scrubbing, and CRM-ready account exports for Sales teams
- Built **NAICS Whitespace Explorer**, a strategic segmentation and opportunity-scoring framework evaluating **309 NAICS-4 segments** across market size, win rate, coverage, and outlier-deal potential for FY27 vertical planning
- Modeled **Industry Heat Score**, a monthly industry-ranking system using customer durability, acquisition, attach-rate, and pipeline signals to identify an estimated **\$1M-\$8M annualized New MRR opportunity**
- Designed **Competitor Churn Signal Analysis** to identify mid-market companies likely to migrate from comparable platforms; produced a validated 16K-company cold cohort and estimated **\$960K-\$3M annualized New MRR potential**
- Maintained scalable BigQuery and Dataform analytics foundations supporting executive reporting, go-to-market analytics, campaign workflows, and operational reporting after central engineering ownership sunset
- Identified and remediated a production data-quality issue spanning **86M enrichment rows**, recovering accurate firmographics for **158 impacted accounts** and converting the failure mode into reusable SQL governance patterns
- Created **9+ reusable Claude Agent Skills** for opportunity sizing, QA validation, CRM exports, named-account pulls, play sizing, insight-to-action translation, and stakeholder handoffs

- Established recurring Sales, RevOps, and Data Science operating sync to improve rollout planning, prioritization visibility, SLA alignment, and coordination for new campaign and sales-play workflows
- Mentored peers on AI-enabled analytics workflows, GitHub review practices, query review standards, and self-service analytics publishing

GOOGLE

Senior Business Intelligence Analyst, Finance

NEW YORK, NY

Jul 2021 - Sep 2023

- Supported rollout of the **Performance Max product** through forecasting, business intelligence, and launch analytics tied to cross-channel inventory expansion
- Built forecasting and incremental-revenue sizing models supporting Finance-side product launch decisions, investment planning, and executive business reviews
- Led development of internal Finance SQL and analytics training curriculum, improving technical capability and analytical fluency across non-technical teams

SIGNATURE AVIATION

Senior Analyst, Revenue Management

ORLANDO, FL

Jul 2018 - Jun 2021

- Developed Tableau reporting and forecasting dashboards used across **100+ operational locations** and consumed by executive leadership for business planning
- Designed lead-generation opportunity model that uncovered **\$5M+ in uncaptured revenue opportunity** across dormant and underutilized leads
- Built reporting infrastructure supporting a branded credit-card initiative that contributed to **15% revenue penetration growth** in the target loyalty cohort

UNIVERSAL ORLANDO RESORT

Business Intelligence Analyst to CRM Analyst

ORLANDO, FL

Dec 2014 - Jul 2018

- Managed CRM campaign performance reporting and audience segmentation across email and digital marketing channels
- Developed consolidated analytics datasets spanning **7 revenue streams** to support marketing measurement for the Volcano Bay launch
- Implemented algorithmic segmentation strategies within campaign management platform to improve targeting effectiveness and campaign personalization

INTERLINE BRANDS / HOME DEPOT PRO

Marketing Planning Analyst

JACKSONVILLE, FL

Aug 2013 - Dec 2014

- Built customer segmentation and campaign targeting models across **12 brands and 100K+ customers**
- Maintained SQL databases supporting campaign tracking, retention analysis, and quarterly marketing performance reporting
- Developed 6-segment RFM framework supporting customer retention and lifecycle marketing initiatives

EDUCATION AND CERTIFICATIONS

ROLLINS COLLEGE

CLAUDE & CLAUDE CODE 101

Winter Park, FL | 2009-2013

Anthropic

TECHNICAL SKILLS

AI and Agentic Learning: Claude, Claude Code, Cursor, GPT, Codex, Gemini

Languages and Analytics: SQL, BigQuery, PostgreSQL, Python, pandas, NumPy, scikit-learn

Visualization and Applications: Streamlit, Flask, Plotly, Tableau, Qlik

Cloud and Infrastructure: GCP, Vertex AI, Dataform, GitHub, CI workflows

Analytics Domains: Lifecycle analytics, audience segmentation, forecasting, experimentation, KPI design, GTM analytics, RevOps, churn modeling, reactivation modeling
